

**Curriculum and Standards Framework (CSF)II Links with the Ollie Saves the Planet CD ROM Program
June 2003**

The Curriculum and Standards Framework (CSF) describes what students should know and be able to do in eight key areas of learning at regular intervals from the Preparatory year to Year 10. It provides sufficient detail for schools and the community to understand the major elements of the curriculum and the standards and outcomes expected of successful learners.

The following pages describe the sections of the Ollie Saves the Planet CD ROM Program that could be used to cover sections of the Victorian education curriculum. It makes reference to Key Learning Areas, Strands and Levels.

This matrix of information has been developed to help Victorian Teachers show the relevance of the Ollie Saves the Planet CD ROM Program within their classroom activities. For further ideas about how to use the Ollie Saves the Planet CD ROM Program refer to the Units of Work in their Educators section on either the CD ROM or Website.

Note: In using this matrix, the **bold** words refer to the Activity off the main menu. Following the links to find the associated activity.

LEVEL	SOSE	Health & Physical Ed.	Technology	The Arts	Science	LOTE
1.1	Movie	Sustainability - What can we do? Air - Activity No 1.	CD ROM Insert – Systems Requirements.	VISUAL ARTS Educators - Sustainability Unit of Work - No 2. Scene setters - Activity 1. PERFORMING ARTS Educators – Waste	Sustainability. What can we do? Biodiversity – Activity 2 - Genetic Diversity.	NIL

				(1) Unit of Work - No. 2. Scene setters - Activity 5.		
1.2	Sustainability – What is it ? Space City – Project - Movie.	Action Town – refer to whole section.	Website - Build web pages using template provided. Project Sustainability News.			
1.3	Reuse – Repair Activity.					
2.1	Sustainability. - What is it? Resource Activity – Infoscreens - Forests.	Sustainability - What is it? Space City Activity - Movie.	Action Town – refer to whole section.		Educators – Water Unit of Work - No 9. Additional activity - No 5. “Watery sounds”	
2.2	Action Town - Community building.	Sustainability - What is it? Resource Activity - Info screens – Agriculture – No. 5 “Chemicals in agriculture.”	Educators – Waste (2) Unit of Work – No. 2 Scene setters – Activity 2 - “Second hand shopping brochure.”			
2.3	Educators – Water Unit of Work – No. 3 – “Identification of a local water					

	issue”.					
3.1	Rethink - Family Tree Activity.	HEALTH OF INDIVIDUALS AND POPULATION Action Town - Community building - “In your community.”			BIOLOGICAL Sustainability - What can we do? - Biodiversity Activity No. 2. CHEMICAL Recycle - Plastic Factory - How is it made? EARTH Sustainability – What is it? Resource Activity – Infoscreen – Forests.	
3.2	Rethink - Family Tree Activity - . Infoscreens.	HEALTH OF INDIVIDUALS AND POPULATION Reduce - Shopping			BIOLOGICAL Sustainability. What can we do? Biodiversity -	

		activity.			Activity 3. CHEMICAL Recycle – Factories - Plastic factory - How is it made ?	
3.3	Action Town – See buildings – Telstra and Aust Post.					
3.4	Action Town – See buildings - City West Water and Origin Energy.					
4.1	HISTORY Rethink - Family Tree Activity - Info screens.	HEALTH OF INDIVIDUALS AND POPULATION Educators – Sustainability Unit of Work - No 2. Scene setters - Activity 8 “A right to the world’s resources.”			BIOLOGICAL Sustainability - What can we do? Biodiversity Activity 2. CHEMICAL Recycle - Factory activity.	

					<p><i>EARTH AND SPACE</i></p> <p>Sustainability - What can we do? Air - Air info screens.</p> <p><i>PHYSICAL</i></p> <p>Educators – Energy Unit of Work - No 9. Additional activities – No.5 “Bad case of wind”.</p>
